Skills

- **Programming:** HTML, CSS, javascript, React.js, node.js, express.js, Java, DSA,
- **Databases:** MongoDB, MySQL
- **Tools & IDEs:** Git, GitHub, Visual Studio Code,
- **Other:** REST API, Responsive Web Design

Experience

EduSkills Academy

(Supported by AICTE & National Internship Portal)
2025)

(Virtual Internship | Apr 2025 – Jun

Web Full Stack Developer Intern

- Worked on full-stack web development using HTML, CSS, JavaScript, and backend basics.
- Developed responsive UI and implemented basic server-side functionality.
- Improved problem-solving and practical development skills through projects.

EduSkills Academy

(Supported by AICTE & National Internship Portal)

(Virtual Internship Jan 2026 – Mar 2026)

Java Full Stack Developer Intern

- Worked on Java Full Stack Development concepts including Core Java, frontend technologies, and database fundamentals.
- Developed basic applications using Java and implemented object-oriented programming concepts.
- Gained hands-on experience in problem-solving, debugging, and software development practices.
- Enhanced technical skills through practical assignments and project-based learning.

Projects

Smart Attendance System | Python, Flask, OpenCV

- Developed a **face recognition-based attendance system** using Python, OpenCV and Flask for automated attendance tracking.
- Implemented **liveness detection and geofencing** to reduce proxy attendance and improve authenticity.
- Added **student/teacher workflows, attendance records and percentage tracking** through a web-based interface.

AI-Health Voice Agent | React, Node.js, Gemini

- Built an **AI-powered voice health screening assistant** using React, Node.js and Gemini.
- Integrated **voice-based interaction and AI processing** to provide an interactive health-screening experience.
- Designed a responsive web interface for seamless user interaction.

Smart AI Quiz | Python, Flask, HTML, CSS, JavaScript

- Developed an **AI-powered quiz generator** that creates MCQ questions on user-provided topics.
- Integrated an **LLM API with Flask** to dynamically generate quiz content.
- Built an interactive frontend for **quiz generation and user responses**.

Leadership & Awards

- Participated in Hackathon – Contributed to Smart Bus project
- Appreciated for teamwork and innovative ideas

Certifications

- Python for Beginners – IBM Skills Build
- Hackathon Participation – Hack Bhoomi
- Web Full Stack Developer – EduSkills
